

**clipper** RETAIL

Let's talk shop.

Part of the Clipper Retail Collective.

## The Clipper Retail Collective, talking shop for forty years.

Clipper Retail is the founding company of the Clipper Retail Collective. An established retail labelling business for over 40 years, the Lynx labelling tool range continues to dominate the market today. The product offering by Clipper Retail has evolved to include 'goods not for resale' and has become an essential partner to all types of retailers.

We listen to the needs of our clients and source and develop products to fulfil these needs. Our range covers retail security, retail labelling and retail operational products. This catalogue provides a taster of the many lines we hold in stock, available for immediate shipment to the UK and Europe. We look forward to becoming your valued partner.

## Want to know more about the Clipper Retail Collective?

The Collective is made up of three companies, with each focused on a specific area of retail. All three help retailers improve customer experience. Through technology, equipment and store design - attracting clients into your store and enhancing their shopping experiences - we work with you to improve processes and drive sales.

Clipper Retail, Sekura Global and Most Interiors, are the Clipper Retail Collective. Each company in the Collective complements one another, providing a go-to partner for retailers who want to challenge the status quo within the sector. We can help you turn your stores into real CX destinations.
